**Start Up**

- Pressurize system, inspect for leaks, and review entire system for proper operation
- Cut grass from around each sprinkler head and check for proper coverage
- Program controller for proper for watering operation
- Make necessary repairs to sprinkler system
  - o Replacing non-working sprinkler heads, pop up sprays, nozzles, and valves.
  - o Parts are an additional cost. **Gold package includes discounted price on parts.**

**Winterization**

- Clear all irrigation lines of water and deactivate the controller
- Winterization must be completed no later than **November 30, 2016**. We will not be held responsible for breaks in backflows or any part of the irrigation system after November 30, 2016.
  - o **Customers are expected to call/ EMAIL ([service@thomasirrigation.net](mailto:service@thomasirrigation.net)) for winterization service.**

**Backflow Certification**

- Backflow testing is a State of Indiana requirement. Backflow device must be the type that can be tested.
  - If backflow does not pass inspection, we make every attempt to clean device so it may pass.
  - If parts are needed to correct for passing, parts will be an additional cost.
- \*Note: Any filing fees will be added to the invoice at the current registration fee.
